Meenu's
— Manchester's —

Company Profile

ABOUT US

Established in the year 1968, Meenu's Manchesters are one of the pioneers in the textiles industry. Started as Kanniga Textiles in 1968 as a family owned one of its kind textile production company weaving cotton lungis and dhotis.

As generations passed and the textile industry bloomed, the family had its own growth chart to diversify the textile stream into home textiles, institutional textiles (hotels and hospitals), baby garments and comforters. Thus, Meenu's Manchesters is primarily a wing on its own focussing on 3 segments - Hotels, hospitals, home textiles and newborn baby garments.

Vision Statement: Supply quality products at an affordable price to facilitate all categories of clients.

Our clientele profile will speak for itself and we supply to most of the leading and local hotels in and around India. To brief, we cater our service ranging from government organisations to star studded premium properties in India and around the globe.
