# Company Profile

Rome was not built in a day and Mahmud of Ghazni didn't succeed overnight. Similarly, we have a history to share. It all began in 1968 when Mr. C.Balusamy from Erode, Tamilnadu comprehended his weaving and trading skills along with the local community. Soon the trade turned into passion that required more human resources.

In 1978, Mr. C.B.Gunasekaran with guidance and assistance from his siblings worked smarter together and posted their skills to sprout the business to the next phase making it a national manufacturing firm.

The business attracted wider market with its range of products like bed sheets, pillow covers and towels. Progressively, new ventures and opportunities knocked the door and the first textile export shipment was sent in 1997 to the sub-continent neighbours which later marched to various continents around the globe.

*"Progress is impossible without change, and those who cannot change their minds cannot change anything" - GB Shaw*

The above inspirational quote from GB Shaw inspired the birth of a new generation of entrepreneurs with innovative thoughts and strategical business processes.

To enhance our efficiency and be a market leader in our industry, 'ALBEDO' was born as a reputed brand manufacturing high volume fabric and crafting them in to finished products.

**Our quality will speak for itself and so do our clients with very valuable personal references and relationships.**

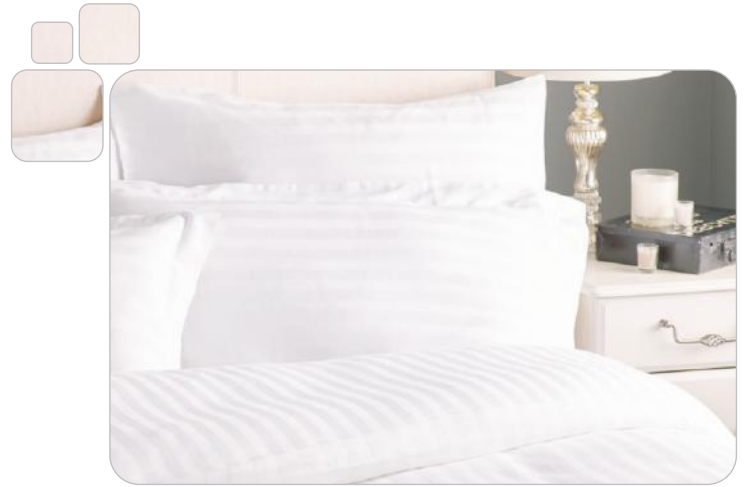

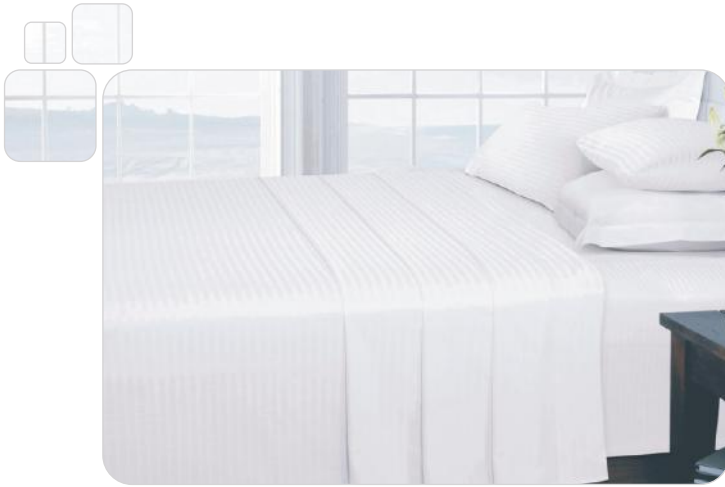

**One ideology we haven't changed - "Quality, mastering fabrics & technology"**

# Hospitality Linen

Bed Linen | Duvet | Pillow | Bath Linen | Table Linen | Laundry Linen
